

THEMBA XABA

Software Developer

About Me

I am a tech enthusiast passionate about solving problems and building efficient backend systems. Skilled in Java, Python, OOP, and TDD, I thrive in collaborative environments and enjoy learning new technologies and approaches. Currently seeking opportunities to apply my expertise, grow my skills, and make a meaningful impact through teamwork and innovation.

EXPERIENCE

WeThinkCode (JHB, Apr 2023- Aug 2023)

- Role: Bootcamp Mentor and Reviewer

- Responsibilities:

- Facilitated teamwork and knowledge exchange among Bootcamp participants by teaching effective collaboration, providing detailed feedback on projects, and guiding them to success through constructive support.

MyDough (JHB, Jan 2024- Feb 2024)

- Role: Intern Software Engineer

- Responsibilities:

- I collaborated on enhancing My Dough's platform by implementing responsive features with Angular, optimizing performance, and ensuring maintainable code through code reviews and debugging. I also stayed current with new technologies to align with project goals and improve user experience..

EDUCATION

University of Witwatersrand

Bsc Computer Science

Grade: 3rd Year(Incomplete)

2018-2021

WeThinkCode_

NQF level 5 qualification in systems development

Grade: Complete

2022-2024
